## SAFETY INSTRUCTIONS

### IMPORTANT WARNINGS

Please read these instructions carefully before using.

When using electrical product basic safety precautions should always be followed, including the following:

- This appliance is not intended for use by children or those that need supervision. This is not a toy.
- Press the touch sensor button properly.
- Never insert anything into the appliance or touch the mirror with sharp objects, this will prevent injury, damage or scratches.
- Do not operate outdoors.
- Use this appliance for the intended use only.
- Turn the product off when not in use.
- Turn off the power before cleaning. The surface of the mirror should be cleaned with glass cleaner; please make sure the mirror is completely dry before using.
- Keep the mirror dry, humidity may affect and reduces the sensitivity of the product.
- This product is not waterproof. Do not place or store appliance where it can fall or be pulled into a bath or sink. Do not place or drop water or liquid onto the product.
- Turn off the power and avoid direct sunlight if not used or stored for a long period of time. Reflected sunlight may cause fire.
- Keep away from heated surfaces.
- Excessive use could lead to the product's excessive heating and a shorter life. Should this occur, discontinue use and allow the unit to cool before operating again.
- Do not operate under a blanket or pillow. Excessive heat can occur and cause fire, electrocution or injury to persons.
- Use the supplied cable or ensure the charging device is adequate for the mirror voltage rating before using. Do not disassemble or refit the products.
- Stop using immediately and dispose if any breakage or damage occurs. Never operate if the cord or plug has been damaged, if it has been dropped or damaged or dropped into water.

## OPERATION

1. Please use original adapter DC12V/1A, connect the appropriate adapter to the charging port on the back.
2. Press switch to turn the light on/off. 100% brightness when turned on.
3. Press to switch between warm, natural and cold light.
4. Press and hold to adjust the brightness.
5. Unplug the adapter when it is not being used.
